See Ruling 631.....APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source and is limited to what the well will produce but not to exceed 0.45 c.f.s. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. The amount of water granted in this permit (subject to Ruling, dated August 30, 1963) is inter-related with the waters granted under Permits 20195, 20197, 20198 and 20199, therefore, the total annual amount of water from all five permits is limited to 97,042,500 gallons annually. The maximum diversion at any one time is limited to not to exceed 0.45 c.f.s., from all the sources named in the five permits. However, the 0.45 c.f.s., may be diverted from any one of the five diversions with the exception that the maximum diversions under Permits 20198 and 20199 are limited to 0.089 c.f.s., and 0.067 c.f.s., respectively. A substantial weir or other type of measuring device must be installed and measurements of water use kept, and a method provided, either air line or opening, for measuring depth to water. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.45.....cubic feet per second.....

Actual construction work shall begin on or before.....March 30, 1964  
Proof of commencement of work shall be filed before.....April 30, 1964  
Work must be prosecuted with reasonable diligence and be completed on or before.....March 30, 1965  
Proof of completion of work shall be filed before.....April 30, 1965  
Application of water to beneficial use shall be made on or before.....March 30, 1968  
Proof of the application of water to beneficial use shall be filed on or before.....April 30, 1968  
Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....*July 9, 1964*
